Telehealth Offered for Psychiatry, IOP and PHP at Onward Behavioral Health

Telehealth Offered for All Onward Behavioral Health Outpatient Services, Including Psychiatry

Earlier this week, Onward Behavioral Health implemented telehealth videoconferencing technology in all of our Rehab After Work, Seeds of Hope and The Light Program outpatient locations to ensure that patients have access to critical treatment programming for substance use, mental health and eating disorders during this crisis. Our staff is continuing to work swiftly to effectively carry out the transition to telehealth services. We have received positive feedback from clients, clinicians and referral partners regarding this new system.

Services via telehealth include:

- Outpatient groups and individual counseling sessions
- Intensive Outpatient (IOP) and Partial Hospitalization (PHP) programs
- Level-of-care assessments (LOCA's)
- Psychiatric evaluations and medication management

As a provider of behavioral healthcare services, Pyramid Healthcare, Inc. and all of its affiliated companies and staff are committed to finding ways to continue delivering quality care during this uncertain time.

For any questions or to schedule an initial assessment, please call us at (610) 644-6464 or visit obhcares.com.
